DETAILED ACTION

1. This action is in response to Amendment C, paper number 18, received December 2, 2002. The amendment has been considered and entered. Claims 90-136 are under prosecution. The applicant's arguments have been reviewed and fully considered. All of the rejections made in the prior office action under 35 U.S.C. 112, second paragraph, have been adequately addressed by the applicant's amendments and arguments, and are therefore withdrawn. In light of the applicant's arguments, the rejection under 35 U.S.C. 103 is also withdrawn.

Maintained Rejections, Obviousness-type Double Patenting

2. In the previous office action, claims 90-98 were rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,194,149; claims 99-100 were rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claim 1 of USPN 6,355,437; and claims 101-106 were rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claim 1 of USPN 6,355,437 in view of USPN 6,194,149. The rejections are not reiterated here, but are maintained.

In the amendment, the applicant states that they disagree with the double patenting rejection, but does not offer any arguments against the rejection. Rather, the applicant states "the applicants submit herewith a terminal disclaimer in compliance with 37 CFR 1.321 (c)." No terminal disclaimer has been received by the Patent Office, and as such the rejection must be maintained.

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Conclusion

3. Claims 90-106 are rejected. Claims 107-136 are allowable over the prior art.
4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
